

NZISA Representative Funding Policy

Version 1.0 (21 March 2009)

1 Policy Aims and Considerations

This policy aims to set out the terms and amounts of funding which will be made available to those persons representing New Zealand internationally.

The purpose of funding is to achieve particular aims of the Association.

The maximum amount funded is subject to budgetary considerations and is likely to vary from year to year. Income, other expenditure, the number of athletes and officials representing New Zealand in a season, and the number of events attended will all impact the maximum funding that the NZISA will be able to provide.

2 Travel and Reimbursement Policy Applies to All Funding

All funding provided for by this policy is also subject to the terms of the Travel and Reimbursement Policy.

3 Travel and Accommodation

Except where explicitly noted otherwise, funding is provided for reimbursement of travel and accommodation expenses only. Accommodation en-route will not be funded unless it is both an organised part of team travel and reduces the overall cost of travel.

Only economy class airfares will be funded.

4 Contributions for Coaches

Where funding is provided for coaches, funding will be provided for an athlete to take their primary coach from the athlete's training base or to use another coach. Where another coach is used, the maximum funding provided may be less.

Funding for a primary coach is provided for travel and accommodation only.

Funding for a coach other than the athlete's/team's primary coach is provided for coaching fees only.

Parents/caregivers may not act as coaches unless they are Coach Members of the NZISA and have been the primary coach for their child for more than one year.

Where two or more athletes use the same coach, only one primary coach contribution will be provided.

5 Funding Season

The funding season is defined as approximately one year between New Zealand Nationals events. Within this document season always refers to funding season.

6 Funding is Maximum

All amounts shown are the maximum that may be reimbursed (subject to the Travel and Reimbursement Policy). Where a percentage is given, only that percentage of the total reimbursable expenses will be reimbursed (up to the maximum given).

7 Payments in Advance

Funding may be provided up to three months in advance of departure (subject to the Travel and Reimbursement Policy). An expenses form must be submitted indicating a request for advance payment. Invoices and receipts must be submitted at a later date and any amount advanced in excess of an allowed claim must be returned. See also Travel and Reimbursement Policy.

8 Special Training Grants for ISU Championships

Funding is provided for special training to a maximum specified amount per funding season for special training in preparation for ISU Championships (those ISU events with the word championship in the name of the event).

Only the following special training will be funded and only for amounts which exceed the normal costs of training:

- High-altitude training and acclimatisation;
- Ice time for programme run-throughs (to a maximum of \$100/hr and 4 hours, not earlier than 2 weeks prior to departure);
- Overseas training under the guidance of an internationally-recognised coach (except immediately prior to the event); and
- Training costs necessary to ensure a high-level of performance where the costs exceed the costs of normal training and the result of **exceptional circumstances** (where approved by Council).
